

Enterprise Agreement Renewal Advisory

What if Enterprise Agreement Renewal's didn't need to be so difficult?

We do not sell software licences and are uniquely positioned to provide independent and impartial licensing advice

Key Benefits

- ✓ Make informed and strategic renewal decisions that align with your technology roadmap and future state software requirements.
- ✓ Guidance through the myriad of licensing options available to on-premises, cloud and hybrid IT environments.
- ✓ Proactively identify and mitigate compliance risks.
- ✓ Gain the information you require for board-level approval.

Software Licensing is Complex. We can Help...

The renewal of a Microsoft Enterprise Agreement Enrolment takes place once every three years. It is the most significant Microsoft licensing event that an organisation undertakes as it provides an opportunity for an organisation to make strategic decisions and effectively reset, right-size, optimise and align licensing purchases with its technology roadmap and business goals.

The process of architecting the renewal can be challenging due to the ever-changing list of available products, services and licence suites, the complexities of navigating evolving licence terms and the need to typically licence both on-premises and cloud environments.

Discover SAM specialises in Microsoft software licensing and we have been helping organisations like your own with Enterprise Agreement Renewal's since 2011.

Through our **Enterprise Agreement Renewal Advisory Service**, we conduct a complete analysis of your Microsoft licensing requirements and provide tailored renewal options that are carefully architected and aligned with your technology roadmap and future state software requirements.

Our comprehensive deliverable reports include;

- ✓ Effective Licence Position (ELP) Report
- ✓ EA Renewal Advisory Report
- ✓ Server Insights Data Workbook
- ✓ Endpoint Insights Data Workbook
- ✓ User Insights Data Workbook
